

CRAZY 4 POKER

Crazy 4 Poker is a casino table game played against the dealer. It is similar to Three Card Poker but, as the name says, is based on four cards. The player and the dealer each receive five cards to make the best four-card hand. A four card straight is a straight, a four card flush is a flush, and a four card straight flush is a straight flush.

START

Place an equal bet amount on both the Ante and Super Bonus betting circles. Optionally, place a Queens Up wager on the Queens Up betting circle. Once the bets are placed, you and the dealer each receive five cards.

PLAY & ANTE WAGERS

After seeing your cards, you either fold or stay in the game by making the Play bet. The Play bet must match the Ante, unless you have a pair of Aces or better. With at least a pair of Aces, you can bet one, two, or three times the Ante. There are two ways to win: (1) when the dealer does not qualify or (2) when a player's hand beats the dealer's qualifying hand. The dealer qualifies with a King-high or better. You win even money on your Play bet when the dealer fails to qualify. You win even money on both your Play and Ante wagers when you beat the dealer's qualifying hand. You lose your Play and Ante bets when your hand loses to a dealer's qualifying hand.

SUPER BONUS

The Super Bonus bet must be the same bet amount as your Ante bet. You lose this bet in two ways: (1) You fold your hand or (2) You lose to the dealer AND your hand is less than a straight. Your Super Bonus bet wins whenever you have a straight or better.
