

ZAPPIT BLACKJACK

RULES

ZAPPIT is based on regular blackjack. However, if you're dealt a hard two-card total of 15, 16, 17 or 18, you have the option to get two new cards. The dealer will check for a blackjack, if applicable, before players are allowed to ZAPPIT.

Insurance is offered as in the regular game. If you elect to ZAPPIT then your initial hand is replaced with two new cards. Regular blackjack rules and procedures then continue with the new hand.

SUMMARY

All doubling and splitting is allowed on regular and exchanged hands. First-two-card blackjacks pay per house rules. Receiving an Ace and a 10 value card after zapping a hand is considered "21" and not a blackjack.

Aces may be split only one time and will receive one card each. Note that splitting Aces receiving a 10 is a 21 and not a blackjack.

PUSH 22

If the dealer busts with a point total of 22, any bets you have left in action are pushes.

Note: Player blackjacks are paid before the dealer hits out his hand.
